

Cheetah & Wildlife Centre

Cheetah & Wildlife Centre wants to ensure that the children of today and tomorrow don't have to watch cheetahs and wild dogs become extinct, as many other animals already have.

Project summary:

The centre is guarded by the majestic Waterberg Mountains, so that the animals can thrive in this non-commercialized area of peace and tranquility can develop.

The reserve is also rich in wildlife: Eland, hartebeest, blesbok, giraffe, hippopotamus, crocodile, warthog, ostrich, zebra, impala, waterbuck, kudu and many more.

Combine the rich diversity of wildlife and birds, clear night skies and minimal signs of human development, and you have nature at its best!
